MEANING OF RESEARCH

1. Research is a derivation of the French word "Researcher" - means quest, search, pursuit and search for truth.
2. According to Clifford Woody research comprises defining and redefining problems, formulating hypotheses or suggested solutions; collecting, organizing and evaluating data; making deductions and reaching conclusions; and at last developing testing the conclusions to determine whether they fit the formulated hypothesis.
3. B. Webster and M. Stephenson in the Encyclopedia of Social Sciences define research as "the manipulation of things, concepts or symbols for the purpose of generating to extend, correct or verify knowledge, whether that knowledge aids in construction of theory or in the practice of an art."
